

November 10, 2020

His Excellency Charlie Baker
Massachusetts State House
Office of the Governor
Boston, MA 02133

Dear Governor Baker,

We, the undersigned Massachusetts faith leaders, want you to know that we have been praying for you and for all those in authority in our nation and our commonwealth. We also consistently pray that there will be justice for the poor, the downtrodden, the defenseless, and the least among us. We include amongst those our children still in their mother's womb.

As we approach the season of Advent, we remember that John the Baptist reacted in his mother's womb when greeted by Mary, who was also pregnant at the time with our Lord. We are dismayed to learn that, once again, over 18,000 children, our neighbors, had their lives brutally cut short while in their mother's womb last year in Massachusetts.

As tragic as this injustice for the unborn is, recent media reports indicate that there is now a renewed push to expand that dreadful number through passage of one of the most radical abortion bills in the nation. An "Act to Remove Obstacles and Expand Abortion Access" or the "ROE Act," represents a shocking and callous disregard for human life and the importance of parental involvement in the lives of children. You have the power, the duty, to stop this legislation from becoming law in Massachusetts, and we urge you to do so.

As a reminder, this latest version of the ROE Act, renamed "Amendment #759 to H5150: Improved Access to Healthcare" would still:

1. Extend legal abortion all the way to 40 weeks for effectively any reason "to preserve the patient's physical or mental health."
2. Allow underage girls to get abortions without their parents' consent or even knowledge. (340 girls under the age of 18 had abortions in Massachusetts in 2019. Under the ROE Act, none of their parents would have the right to even know.)
3. Expand who can perform abortions from physicians only to now include physician assistants, nurse practitioners and nurse midwives.
4. Allow doctors to deny life-saving medical care to a clearly viable baby born alive during an abortion.

The killing of a human being is not healthcare. Healthcare involves medical, physical, and psychological treatment and services that sustain and improve life, not extinguish it.

In 2019 alone, there were 18,593 abortions performed in the Bay State. How much more “accessible” does the murder of unborn children need to be? Abortion ends the life of a human child and puts the physical, mental, and emotional health of women, most especially young women, at risk. On behalf of women and babies across the Commonwealth, we petition you to veto this bill, should it come to your desk.

Sincerely,

Pastor Jackson R Oliveira
